Application for Spay/Neuter Cost Sharing

In partnership with several participating Fremont County veterinary practices, WFCHS may share the cost of a spay/neuter procedure for applicants who live west of Diversion Dam.

Please note, pet owner's share of the spay/neuter fee is due in full at the time of the procedure. WFCHS will be invoiced for its share by the participating veterinarian. Any additional services provided by the vet will be payable in full by the owner, and do not qualify for cost sharing.

Requirements:

- One animal per application only. If you have more than one animal to be spayed/neutered, please create a separate submission for each animal.
- Minimum age of animal is 4-6 months (varies by vet, see below).
- Vaccinations must be current (varies by vet, see below).
- Once the application is approved, pet owner will be notified by WFCHS.
- Pet owner then must make the appointment directly with the participating vet.
- Application approval expires after 30 days, if procedure is not done within that period a new application will be required.
- Pricing subject to change without notice. Please check with vet when scheduling. Medical complications beyond the typical spay/neuter will be paid by owner.

List of participating vets, fees you as owner will pay out of pocket, and extra notes:

WFCHS is a volunteer non-profit organization that raises funds via donations to provide services for animals in need in the Upper Fremont County area. We expect owners who are able to pay the cost of spaying/neutering their pets to do so and allow our limited funds to reach further. Please carefully consider this when submitting an application. WFCHS assumes no liability implied or otherwise for the performance of the procedure. This cost share does not include medical complications arising during the procedure.
